

This fabulous puzzle has everyone baffled at Christmas! Every Christmas we have circulated this to our Printable Heaven customers and we always have many responses begging for the solution, and usually one or two angry ones that claim we've done it wrong and that it can't be done. All we can say is oh yes it can!! Print onto white card, cut up each puzzle into its 4 pieces, put them in a little grip-seal bag and use as cracker novelties or tuck them inside Christmas cards. If you're desperate for the solution you can find it at www.printableheaven.com/santapuzzlesol

Mount the two Santas on the reindeer without bending, folding, cutting or in any way mutilating the cards. It can be done - try it!
